REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Although the prior art teaches hydrolysis of claimed nitrile polymers using catalysts which can be the same, the prior art is silent as to the desirability of producing the polymers with carbamoyl functionality as done in applicants' claimed method. There is, therefore, no motivation provided by the prior art to duplicate the method of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
